Clinical Policy: Anti-Inhibitor Coagulant Complex (Human - Feiba)

Reference Number: CP.PHAR.217
Effective Date: 05/16
Last Review Date: 05/17

Coding Implications
Revision Log

See Important Reminder at the end of this policy for important regulatory and legal information.

Description
The intent of the criteria is to ensure that patients follow selection elements established by Centene® clinical policy for anti-inhibitor coagulant complex (Feiba®).

Policy/Criteria
It is the policy of health plans affiliated with Centene Corporation® that Feiba is medically necessary when the following criteria are met:

I. Initial Approval Criteria
   A. Congenital Hemophilia A and B (must meet all):
      1. Prescribed by or in consultation with a hematologist;
      2. Diagnosis of congenital hemophilia A (factor VIII deficiency) or B (factor IX deficiency) with inhibitors (antibodies to factor VIII or IX);
      3. Request is for any of the following:
         a. Control and prevention of bleeding episodes;
         b. Perioperative management;
         c. Routine prophylaxis to prevent or reduce the frequency of bleeding episodes.

      Approval duration:
      3 months (bleeding episodes/surgery)
      6 months (routine prophylaxis)

   B. Other diagnoses/indications:
      1. Currently receiving medication via Centene benefit and documentation supports positive response to therapy.

      Approval duration:
      Duration of request or 6 months (whichever is less); or

II. Continued Approval
   A. Congenital Hemophilia A and B (must meet all):
      1. Currently receiving medication via Centene benefit or member has previously met all initial approval criteria;
      2. Member is responding positively to therapy.

      Approval duration:
      3 months (bleeding episodes/surgery)
      6 months (routine prophylaxis)

   B. Other diagnoses/indications (1 or 2):
      1. Currently receiving medication via Centene benefit and documentation supports positive response to therapy.

      Approval duration: Duration of request or 6 months (whichever is less); or
Background

**Description/Mechanism of Action:**
Feiba (anti-inhibitor coagulant complex) is a freeze-dried sterile human plasma fraction with factor VIII inhibitor bypassing activity. One unit of activity is defined as that amount of Feiba that shortens the activated partial thromboplastin time (aPTT) of high titer factor VIII inhibitor reference plasma to 50% of the blank value. Multiple interactions of the components in Feiba restore the impaired thrombin generation of hemophilia patients with inhibitors.

**Formulations (from human plasma):**
Solution Reconstituted, Intravenous
- Feiba: 500; 1000; 2500 (units)

**FDA Approved Indications:**
Feiba is an anti-inhibitor coagulant complex/intravenous formulation indicated for:
- Use in hemophilia A and B patients with inhibitors for:
  - Control and prevention of bleeding episodes;
  - Perioperative management;
  - Routine prophylaxis to prevent or reduce the frequency of bleeding episodes.

Limitations of use: Feiba is not indicated for the treatment of bleeding episodes resulting from coagulation factor deficiencies in the absence of inhibitors to coagulation factor VIII or coagulation factor IX.

Appendices

**Appendix A: Abbreviation Key**
aPTT: activated partial thromboplastin time

**Coding Implications**
Codes referenced in this clinical policy are for informational purposes only. Inclusion or exclusion of any codes does not guarantee coverage. Providers should reference the most up-to-date sources of professional coding guidance prior to the submission of claims for reimbursement of covered services.

Important Reminder
This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. The Health Plan makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. “Health Plan” means a health plan that has adopted this clinical policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any of such health plan’s affiliates, as applicable.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable Health Plan-level administrative policies and procedures.
This clinical policy is effective as of the date determined by the Health Plan. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. The Health Plan retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This clinical policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom the Health Plan has no control or right of control. Providers are not agents or employees of the Health Plan.

This clinical policy is the property of the Health Plan. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.

Note: For Medicaid members, when state Medicaid coverage provisions conflict with the coverage provisions in this clinical policy, state Medicaid coverage provisions take precedence. Please refer to the state Medicaid manual for any coverage provisions pertaining to this clinical policy.

Note: For Medicare members, to ensure consistency with the Medicare National Coverage Determinations (NCD) and Local Coverage Determinations (LCD), all applicable NCDs, LCDs and Medicare coverage Articles should be reviewed prior to applying the criteria set forth in this clinical policy. Refer to the CMS website at http://www.cms.gov for additional information.
